

INTERNATIONAL IDENTICAL SCREENING SEARCHES

RAPID GLOBAL SNAPSHOT

- Screen proposed trademarks quickly and cost-effectively.
- Eliminate unavailable names early in the clearing process.
- Select the geographic coverage that meets your needs.

Screening your trademark for identical matches in markets around the world is a smart first step in your international game plan. Taking that step is easy and cost-effective with our International Identical Screening Searches.

LEARN MORE

To learn more about our International Identical Screening Searches, please call us at (800) 692-8833.

Quickly and easily screen your mark in up to 200 countries and trademark registers worldwide, uncovering identical and phonetically identical marks from among more than 38 million trademark records published for the first time since 1976 (Since January 1, 1986 in China). That's the information you need to make informed decisions early in the clearing process.

CHOOSE YOUR COVERAGE

Select the geographical coverage that meets your needs: worldwide (WISS), regional (RISS) or country (KISS).

Worldwide Identical Screening Search (WISS)

Screen your trademark across more than 200 countries/registers around the world.

Regional Identical Screening Search (RISS)

Screen your trademark in one region or create your own region of any 10 countries/registers:

- Americas: South and Central America, U.S. Federal and Canada
- Asia and Australasia
- Europe
- European Union
- Eastern Europe and former Soviet Republics
- Madrid Agreement and Madrid Protocol
- Middle East and Africa

Country Identical Screening Search (KISS)

Screen your trademark in one or more countries/registers.

SPECIALIZED SCREENING

Fine-tune your identical screening search with the following:

Applicant ISS—Screen for trademarks linked to a specific applicant.

Prefix ISS—Screen for trademarks beginning with a specified 3, 4 or 5-letter prefix.

Pharmaceutical ISS—These identical screening searches for pharmaceutical marks are available for a specific country, region or worldwide.
