

MULTI-COUNTRY SCREENING SEARCH

INTERNATIONAL INSIGHT

- Cost-effective—by focusing on the most important registers, you receive the most relevant results at an attractive cost.
- Detailed—In-depth trademark and status information helps you make more informed decisions.
- Fast—Receive results electronically within 72 hours.

LEARN MORE

To learn more about our Multi-Country Screening Search, please call us at (800) 692-8833.

SMART FIRST STEP

Looking to clear your trademark in key markets around the world? Our Multi-Country Screening Search is a cost-effective first step. It's the fast, easy way to screen proposed trademarks for use outside the United States, identifying identical, phonetically identical and closely similar trademarks in more than 40 select registers internationally.

Our Multi-Country Screening Search helps you eliminate unavailable names early in the clearing process—saving you time, money and headaches.

IN-DEPTH INFORMATION

Our Multi-Country Screening Search goes beneath the surface, delivering more in-depth information to help you make more informed trademark decisions. Citations include (when available):

- Detailed record content—including trademark, owner, country, class, and goods.
- Trademark status information—Full history, including current status and all updates and status changes. Includes pre-1976 information.

INTERNATIONAL COVERAGE

We search more than 40 of the most important international registers, including:

Australia	Hong Kong	Poland
Austria	Hungary	Portugal
Benelux	Iceland	Republic of Korea
Brazil	International Register	Serbia
Canada	Ireland	Slovak Republic
Chile	Israel	Slovenia
China	Italy	Spain
Community Trademarks	Japan	Sweden
Croatia	Latvia	Switzerland
Czech Republic	Liechtenstein	Taiwan
Denmark	Lithuania	Turkey
Estonia	Mexico	United Kingdom
Finland	Monaco	Vietnam
France	Norway	Venezuela
Germany	Philippines	

SCREENING PHARMACEUTICAL MARKS?

Our Pharmaceutical Multi-Country Screening Search is the answer. Specifically designed to meet the specialized needs of the pharmaceutical industry, it combines our Multi-Country Screening Search with Pharmaceutical In-Use screening, identifying identical, phonetically identical and closely similar trademarks in more than 70 of today's most important global markets.
